## Welcome to Bailey of Bristol

### Welcome to the Bailey of Bristol touring caravan range.

Bailey caravans have been developed using over sixty-five years of experience in caravan design and are manufactured in our state-of-the-art South Liberty Lane production facility to provide, what we believe to be, the very best in touring home quality and value.

All of our products are built using our patented Alu-Tech construction system and incorporate the core Bailey values of award winning design, first class build quality and unbeatable value for money. Plus to ensure that they remain some

of the best-engineered and most technically advanced caravans available, we subject them to a programme of continuous testing through leading independent experts which takes them as far afield as the Australian Outback and the European Alps.

As a result, we are proud to present three distinct caravan ranges which offer something to suit every lifestyle and budget. To help make an informed decision about which of our models will best meet your needs, we recommend you visit your local retailer who will be happy to demonstrate why Bailey is the UK's favourite touring caravan brand.

## About Alu-Tech

Prior to the introduction of the Alu-Tech construction system in 2009 there had been little change in leisure vehicle bodyshell design for over thirty years. Whilst conventional construction served us well during that period with the advances in production technology and materials we asked: was there a better way?

Two years in the making and the result was the development of our patented Alu-Tech design technology which takes a completely new approach to bodyshell construction. Using a unique interlocking aluminium external framework to which the body panels are bonded and then clamped using internal fixings it has a much stronger and more rigid shell which provides greater protection against the elements.

The sole use of thicker fully laminated panels in this new assembly greatly enhances the thermal performance of the shell, making our caravans genuine four-season vehicles. The replacement of the timber elements in the sides and roof with a composite plastic internal skeleton and GRP wall linings, in conjunction with a significant reduction in the number of external joints and fixing points, enhances its resistance to moisture ingress.

When you consider that these benefits of ownership were achieved without a cost or a weight penalty you can begin to see why the Alu-Tech construction system is so unique.

FEATURES OF ALU-TECH	BENEFITS TO YOU
Sole use of thicker fully laminated bodyshell panels covered in an impact resistant outer GRP skin	Increased strength and durability providing greater protection against the elements Enhanced thermal insulation capabilities to enable holidaying all year round
Interlocking aluminium extrusion external framework with internal fixings	Increased strength and durability providing greater protection against the elements Minimises the number of potential water access points to improve the overall integrity of the shell
Timber free upper bodyshell panels featuring a composite plastic internal skeleton and a GRP inner wall lining	Improved durability by limiting the impact any possible ingress water may cause
Lighter bodyshell with a more balanced weight distribution	Lighter caravans accessible to owners of a wider range of tow vehicles Increased stability and improved road handling for safer towing
Cost neutral design technology	Advanced technology universally available at no extra cost

## CLIMATE CHAMBER TESTING

Tested in extreme temperatures, as low as -28°C and as high as 40°C in a climate control chamber

Terms and conditions apply. All of our caravans are supplied with a 6 year transferable bodyshell integrity and a 3 year transferable manufacturers components warranty. 4 year transferable extension to bodyshell integrity guarantee available as a cost option (making 10 years in total). Please visit [www.baileyofbristol.co.uk](http://www.baileyofbristol.co.uk) for more information on the warranty package.

### Design Innovation

The Alu-Tech construction system is 10% lighter compared to conventional construction

For the full Alu-Tech story visit [www.baileyofoxford.co.uk](http://www.baileyofoxford.co.uk)

### Design Innovation

Timber-free and GRP clad upper bodysell panels give greater protection against the elements

### Extreme Testing

Equivalent to 40 years accelerated life testing carried out at Millbrook on numerous road surfaces

## What makes Pursuit different?

- A low-cost light-weight first caravan range in a choice of six best-selling layouts suitable for couples and large families
- Balanced 14" alloy wheels fitted with anti-tamper WSL Safety Bolts and a high security entrance door lock for additional peace of mind
- A stylish and distinctive exterior with a well-equipped interior to accommodate your everyday needs
- A fully specified Truma Combi heating system with digital control panel for complete comfort all year round
- The option to upgrade the specification with a Premium Pack and sunroof allowing you to tailor the caravan to specifically suit your requirements

The well-designed, well-equipped yet affordable Pursuit range stands out from the crowd with its stylish and distinctive slate grey and polar white exterior with contemporary graphics and 14" alloy wheels. Offering the lightest weights in the Bailey portfolio, Pursuit can be towed by a wide range of tow vehicles.

High quality fixtures and fittings, practical kitchens and spacious washrooms make the Pursuit a perfect base to enjoy outdoor activities in all weathers, as well as the ideal place to refresh and relax afterwards.

**Opposite:** Pursuit 430-4 (Optional Premium Pack and opening sunroof fitted)

**Anti-clockwise from top left:** Pursuit 540-5 kitchen (Optional Premium Pack fitted); Pursuit 550-4 twin fixed single beds (Optional bed linen shown); Pursuit 560-5 washroom.

**Right:** Standard Spice soft furnishings.

Step inside the Pursuit to experience the contemporary design and light and airy interiors. Italian design overhead locker doors with chrome handles, premium quality fabrics and De-Luxe sprung mattresses for fixed-bed models add to the high quality look and feel.

Pursuit boasts an impressive range of home comforts including a Truma Combi boiler with a user-friendly digital control panel, up to five 230v power sockets for all of today's essential electrical equipment, Thetford Duplex combination oven and grill, Dometic 103 litre fridge and a large separate shower cubicle with a bi-fold door and an Ecocamel shower head that's not only more powerful but also uses less water.

*360° product tours for all layouts can be viewed at [www.baileyofbristol.co.uk](http://www.baileyofbristol.co.uk). To find a specific Pursuit model visit the 'Find your Vehicle' section on the same website.*

Key Pursuit features:

1) 14" Alloy wheels fitted with 'Security' tyres and anti-tamper WSL Safety Bolts. 2) Loose fit drop in carpets. 3) Status 550 telescopic directional digital television aerial. 4) Dual fuel Truma Combi boiler with digital control panel. 5) Ecocamel shower head. 6) High security entrance door lock.

Optional Extras:

1) Polyplastic double glazed opening sunroof with night blind in front dome. 2) AL-KO ATC Trailer Control System.

Optional Premium Pack:

Contents include: 1) AL-KO 3004 AKS Stabiliser. 2) Branded Radio/CD/MP3 player with iPod/MP3 player connection point. 3) Floor mounted steel spare wheel & retainer. 4) Exterior door flyscreen. 5) Stainless steel 800 watt microwave oven.

1 in 3 caravans sold in the UK is a Bailey, making it the most popular brand

Bailey is the UK's longest established independent manufacturer with over 65 years experience in leisure vehicle production & design

Bailey leisure vehicles are designed to be 75% recyclable to make them more environmentally friendly

Bailey has the most advanced manufacturing plant in the UK, featuring the industry's only mechanised production line, allowing us to further improve both the quality and value of our vehicles

Bailey products have received more third party endorsements from leading industry sources than any other in recent years re-affirming our position as the UK's favourite leisure vehicle brand

All of our products are certified by the National Caravan Council and have attained Whole Vehicle Type Approval to ensure they are both legal and safe

Outback challenges totalling 26 days, 3000+ miles, +35°C

Alpine challenge totalling 7 days, 6 countries, 1,400 miles, -15°C

Our continuous programme of product development, using expertise from leading third-party authorities such as The University of Bath & the Millbrook Proving Ground, has taken real life testing of our caravans as far afield as the Australian Outback and the European Alps

Since 1948 approximately 165,000 Bailey leisure vehicles have been manufactured in Bristol. If positioned nose to tail these caravans and motorhomes would stretch over 1,000 miles - equivalent to the distance from Bristol to Vienna in Austria

The awning length measurement shown is to be interpreted as a guide only and an enquiry should be made to individual awning manufacturers as to the correct size. Visit [www.baileyofbristol.co.uk](http://www.baileyofbristol.co.uk) for Unicorn metric bed sizes.

## Keeping you safe on the road

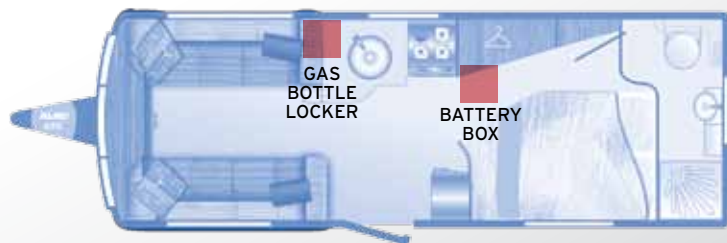

Bailey has worked closely with the Department of Mechanical Engineering at The University of Bath for many years to help develop the design and construction of our leisure vehicles with a view to optimising the towing performance of our caravans.

### Design

As a result of the research carried out we have made some key changes to the design and layout of our caravans to help make them inherently more stable with lower caravan nose weights, as a result making our caravans safer on the road. Changes include:

- The development of the Alu-Tech construction system which, with the absence of the heavy plastic cloaking panels found at the front and rear of conventionally built caravans, has a greater proportion of weight concentrated in the centre of the vehicle.
- Moving heavy items such as the gas bottle locker and battery box nearer to the centre of the caravan over the axle.

As a result of the lightweight Bailey design all of our single-axle caravans have an MTPLM of less than 1500kg further improving the towing stability of our caravans.

Above: The Unicorn Valencia floor plan shows the new location of the heavy items based on the research carried out.

### Safety

It is essential for your caravan to be matched with an appropriate towcar for safe towing. For further peace of mind the following items of safety equipment are fitted as standard or offered as a cost option on all our caravan ranges:

We have also worked with our wheel supplier, Wheel Solutions, to offer a unique package which sets our caravans apart from the rest. All of our caravan wheels are laser balanced ensuring even wear and tear on all of the tyres and every wheel is fitted with WSL Caravan Wheel Safety Bolts which have been designed to ensure the bolts stay tight\* and prevent wheel theft.

## Stability

It is important to load your caravan correctly as this can affect the towing performance of the caravan. Load heavy items such as the awning at a low level and as close to the axle as possible. Medium weight items such as food can be loaded around the heavy items whilst light items such as clothing and maps can be stored in the overhead lockers.

Above: The towing stability model developed by University of Bath shows how a trailer's stability varies according to the location of heavier items such as the gas bottle and battery.

\* Before hitching up the caravan always check the wheels bolt are tightened to the correct torque. \*\* Fitted to Pegasus GT65 and Unicorn ranges only.
